

Installation Procedures

Overview

This topic outlines the procedure to download the PointMan application onto a mobile device. This procedure may also be used to download and install PointMan updates.

Prerequisites

1. Internet connectivity
2. TransparentEarth account and system set up

Procedures

1. Launch the browser application on the mobile device. (Internet Explorer, Chrome, Other).
2. Access the PointMan URL:
<https://te.prostarcorp.com/pub/PointMan.apk>
3. The download should begin immediately, otherwise, tap the latest version of PointMan to start the Download.
4. Tap the **Enter** icon.
"Starting Download" displays at the bottom of the screen.
5. Return to the applications directory on your mobile device.
6. Navigate to the **Downloads** app for your mobile device.
The Downloads screen displays with a list of all downloads sorted by date.
7. Tap the most recent **PointMan** line item.
Unless previously enabled, a message displays stating: "Install Blocked".
8. Tap **OK** to install the PointMan app.
9. Continue with the [System Configuration](#) procedures.
